SECTION F- SAFETY PROCEDURES

Crews are required to report any incident involving a member of the public, injury to a competitor, official or spectator, and any damage to private or public property or damage to a competing vehicle. Such reports are to be made on the appropriate form in the Road Book, and must be lodged with a Competitor Relations Officer at the overnight security park or event headquarters, no later than two hours after the involved crew's actual time of booking in at the end of the Leg in which the incident occurred. Failure to report an incident as outlined above could result in the crew involved being liable to a penalty of up to 60 minutes per infringement. Where Safety Points are established crews are required to stop at these points to report incidents where medical assistance is required or where a serious hazard exists.

Symbols and Their Meaning

- The SOS and OK signs are part of the road book; the triangles are carried by competitors

		PUT OUT TO WARN FOLLOWING CREWS TO SLOW DOWN, TAKE CARE AND BE PREPARED TO STOP
SOS	<i>RED</i>	STOP AND RENDER ASSISTANCE
OK	GREEN	NO NEED TO STOP; REPORT SEEING CAR AT STOP POINT

Procedure to be followed by Competitors

Situation 1: Vehicle off the road and is not a hazard: NO HELP REQUIRED

The crew of the vehicle involved at an incident, or if the vehicle is stopped for any reason (including breakdown) is to put the triangles out at approximately 100m and 50m; display the **OK** sign at the vehicle to following crews until the 999 goes past and switch their RallySafe unit to **OK**. If the vehicle is well off the road the **OK** sign is to be placed on a fence, a tree, etc. near the roadway. All following crews are to report the sighting of the **OK** sign at the Stop Point. These crews are not required to stop at a Safety Point.

Situation 2: Vehicle stopped and is a serious hazard: MEDICAL ASSISTANCE REQUIRED

The crew involved at the incident is to put the triangles out at approximately 100m and 50m; the Red **SOS** sign to be held up to oncoming crews and switch their RallySafe unit to **SOS**. The first **TWO** crews on the scene are to stop. The first crew is to stay at the incident; the second crew is then to immediately proceed to report to the next Safety Point or the Stop Point at the end of the stage. Once the second crew has been stopped and departed, the first crew is to switch the RallySafe unit in the damaged vehicle to **OK** and display the **OK** sign to following crews, until the 999 goes past, who must observe the requirement of slowing down when they see triangles, but then can continue without stopping at the scene of the incident. The first crew is to stay until the Medical Intervention Vehicle (MIV) arrives and the crew of that vehicle gives the all clear for the first crew to leave.

Situation 3: Vehicle stopped: NO SIGNS ON DISPLAY

The first crew is to stop at the scene and one crew member is to immediately put triangles out at approximately 100m and 50m, while the other crew member holds up the **SOS** sign to oncoming crews and switch the RallySafe unit of the crashed vehicle to **SOS**. If this unit is damaged then the unit in the stopped vehicle is to be switched to **SOS**. The next crew is to stop. The second crew is then to immediately proceed to report to the next Safety Point or Stop Point at the end of the stage. Once the second crew has been stopped and then departed, the first crew is to display the **OK** sign to the following crews, until the 999 goes past, who must observe the requirement of slowing down when they see triangles, but then can continue without stopping at the scene of the incident. The first crew is to stop at the scene of the accident until the Medical Intervention Vehicle (MIV) arrives and the crew of that vehicle gives the all-clear to leave.

SAFETY POINTS

- A Safety Point is an intermediate point where a competitor can stop and report a serious incident that has occurred prior to that point.
