Queries from competitors (whether on timing, being held up on a TARGA stage or alleged incorrect recording by officials affecting scores) are handled by the CRO's.

To enhance the service to competitors provided by this team a telephone number and email address will be provided for competitors to easily contact the CRO's.

Contact: 0487 870 820

Email: [cro@targa.com.au](mailto:cro@targa.com.au)

## C2. TRAILER PARKING

Trailer parking will be provided as follows:

This is an unmonitored area, therefore parking is at your own risk. Please refer to Service Crew Information for further details.

## C3. RECONNAISSANCE

Reconnaissance notes are available on the TARGA website under Regulations & other documents. These notes will assist competitors in locating TARGA stage start and finish control locations (painted on the road surface as a TS and TF), whilst also familiarising themselves with the competition course. Competitors are advised that if they carry out reconnaissance of the course, they must do so at the posted speed limits and abide by all state road rules. It is important that you act in a manner that does not, at any time jeopardise the integrity or the public image of TARGA Tasmania.

Course survey restrictions include:

- Limiting the number of multiple runs over stages at increasing speeds (this will be deemed as practicing).
- Restricting course surveys to road-registered vehicles that do not carry any sign-writing relating to TARGA Tasmania.
- Forbidding course surveys on certain stages during the week prior to the event.

Any violation of road traffic laws arising from course survey while carrying out reconnaissance may lead to competitors being denied permission to participate in the event.

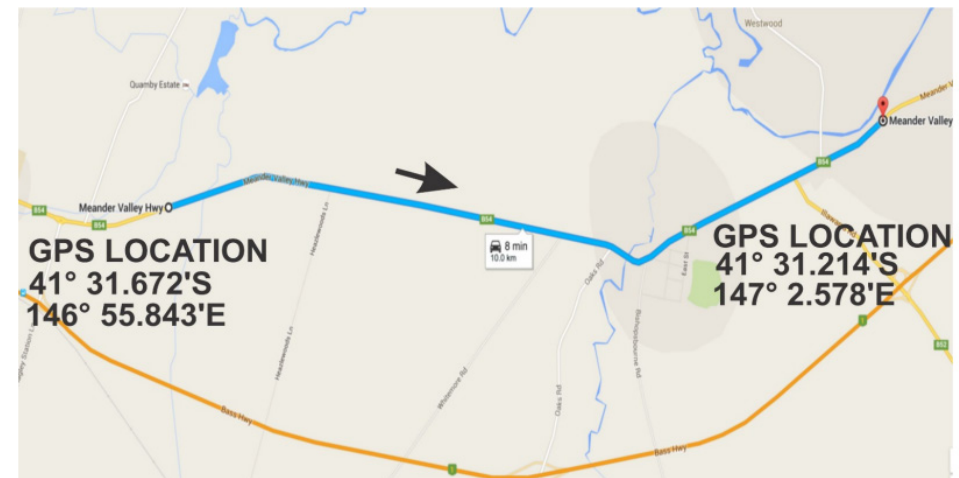

The organisers will not hesitate to take action upon a confirmed report from the police or local residents.

Please refer to the Sporting Regulations available on the TARGA website for more rules outlining reconnaissance.

## C6. TOW TRUCK / RECOVERY

The purpose of this team is to recover and secure any damaged or un-roadworthy vehicles and ensure the crew is not left stranded at the roadside. The cost of transport back to the overnight stop is covered by a one-off levy, included in your entry fee. Towing to any other location is the responsibility and cost of the competitor, as is towing by any other contractor.

It is NOT the responsibility of the recovery team to tow or transport damaged vehicles. They will co-ordinate with the towing contractor, to provide accident and breakdown services. Competitors who call for the recovery team must NOT leave their vehicle until the recovery team has arrived, nor should they arrange alternative recovery procedures.

## C7. ROAD CLOSURES

[TARGA Tasmania road closures](http://www.targa.com.au) are available on the TARGA website, [www.targa.com.au](http://www.targa.com.au).

## C8. COMMUNICATIONS

The widespread availability of mobile phones and other devices mean that many crews have their own method of communication from the competition vehicle.

Whilst TARGA Tasmania does not intend to limit these devices, be aware of the following:

- TARGA Tasmania has a comprehensive communication network, linked to TARGA stage tracking technology, which is designed to respond rapidly to any emergency. It is also designed to allow the competition to continue with the minimum possible interruption. Above all, it is designed to protect the security of the stage.
- When competitors use their own in-car communication device to directly call 000 or others outside of event command for assistance on a TARGA stage, they may inadvertently place the stage security at risk. Ambulances, police response vehicles, media, service or support vehicles might potentially enter a stage entirely unknown to event officials and with possible tragic consequences.

In the event of an incident on a TARGA stage, either to you, another competitor, or even spectator, competitors are required to use the organiser's standard procedures.

**Competitors will be issued with a telephone 'Hotline' sticker to be placed inside the car.**

This sticker needs to be placed on the inside of the car or where it is clearly visible i.e. on the dashboard. If you need to report an incident on a TARGA stage, only use this emergency number to access the Command Centre Emergency Hotline.
